Rahul KUMAR

Data & Analytics Analyst
Power BI Developer | SQL & Python

PROFILE

Data Analyst with over a year of hands-on experience in Advanced Excel, SQL, and Power BI. Skilled in building Power BI dashboards, writing SQL queries, and preparing and validating data using Python and Excel. Experienced in developing reports, dashboards, and data models, with independent projects delivering end-to-end BI solutions using DAX, Power Query, and star-schema modeling. Strong foundation in statistics, EDA, and analytical problem-solving, backed by a Master's in Computer Applications.

SKILLS

- Python, Pandas, NumPy
- Power BI (Desktop & Service)
- DAX
- Power Query
- Dashboard Design
- KPI Dashboards
- Microsoft Fabric
- SQL, MySQL, SQL Server
- Advanced Excel, PivotTables, VLOOKUP/XLOOKUP, Report Automation
- Data Modeling, Star Schema, ETL/ELT, Semantic Models
- Statistical Analysis, EDA, Data Cleaning & Preprocessing, Data Storytelling
- REST APIs, Git, AI Prompting

EXPERIENCE

ASSOCIATE SYSTEM ENGINEER *03/2026 – 07/2026*
Tata Consultancy Services (TCS)

- Built backend applications and REST APIs using Java, Spring Boot, and MySQL; wrote SQL queries for data access, validation, and reporting.
- Applied Python for data manipulation, database operations, and automation as part of a live project.
- Followed standard SDLC practices, including Git version control, code reviews, and unit testing.
- **Technologies:** Python, MySQL, SQL, Git.

ASSOCIATE DATA ANALYST *03/2025 – 02/2026*
ThoughtFocus

- Performed data manipulation, data cleaning, and automation using Python, SQL, and MySQL.
- Wrote Python scripts and carried out database operations to support day-to-day analysis and reporting needs.
- Used SQL queries to retrieve and validate data, focusing on developing efficient and accurate data workflows.
- **Technologies:** Python, SQL, MySQL.

PROJECTS

MOBILE SALES DATA ANALYSIS DASHBOARD
Power BI

- Built an interactive Power BI dashboard on 100,000+ mobile sales records, analyzing sales across regions, brands, cities, payment methods, and time periods.
- Performed ETL with Power Query, connecting Excel and SQL sources, and designed a star-schema data model for efficient reporting.
- Built DAX measures for Total Sales, Profit, Average Order Value, MoM, YTD, and Same Period Last Year, with KPI cards and slicers.
- Surfaced insights on top-performing products and regional trends across 3+ regions, supporting data-driven decisions.

ROAD ACCIDENT ANALYSIS DASHBOARD
Advanced Excel

- Built an interactive Excel dashboard analyzing 300,000+ road accident records, tracking casualties by severity, vehicle type, road type, and road surface condition.
- Designed interactive Slicers and Timeline filters for Year and Location Type (Urban/Rural), enabling dynamic, self-service analysis.
- Created KPI cards, donut charts, and trend line visuals to compare year-over-year casualty patterns and surface road safety insights.

EDUCATION

MASTER OF COMPUTER APPLICATIONS (MCA)
2023 – 2025

Lovely Professional University, Jalandhar, Punjab • CGPA: 7.12
